**Certificate Qualification at certificate issuance time** (2026-05-14

10:49:37 (UTC))

**QC for eSig with QSCD**

- Is the certificate related to a trust service at certificate issuance time?
- Is the certificate related to a CA/QC?
- May a related trust service issue certificates of a suitable type?
- Is the trust service consistent?
- Trust service name : StampIT Global Qualified CA
- Is the certificate related to a trust service with a granted status?
- Does the trusted certificate match the trust service?
- Is the certificate related to a qualified certificate issuing trust service with valid status?
- Is the certificate related to a consistent by QC trust service declaration?
- Is the certificate qualified at issuance time?
- Can the certificate type be issued by a found trust service?
- Is the certificate type unambiguously identified at issuance time?
- Certificate type is for eSig
- Is the certificate related to a consistent by QSCD trust service declaration?
- Does the private key reside in a QSCD at issuance time?
